

Population density and distribution

Juba, South Sudan 2020

UN-HABITAT

This map was produced in the frame of the Juba Strategic Plan project, developed between 2019 and 2020 by UN-Habitat in collaboration with the UN-Habitat Country Office in South - Sudan.

Legend

- Study area
- Population Density (pp/Km²)**
 - <2000
 - 2000-3000
 - 3000-6000
 - 6000-9000
 - 9000-12000
 - 12000-30000
 - 30000-100000
- Airport
- Wetland
- Rivers
- Road network**
 - Primary Roads
 - Secondary Roads
 - Tertiary Roads

Data

	Population	
	Size ²	403 000
	growth rate ³	4.2%
	Density ⁴	2400 habu/Km ²

	Population evolution²	
	1990	106 000
	2000	160 000
	2010	255 000
	2020	403 000
