

Sudan Crisis Regional Map

*A first-of-its-kind spatial data integration
tool on a regional crisis situation*

23 April 2026

Why build the Regional Map?

This map brings together a wide range of spatial data within a single interactive platform for evidence-informed decision making.

8

countries covered

Central African Republic, Chad, Egypt, Ethiopia, Libya, South Sudan, Sudan, Uganda

12

contributing data providers

ACLED, CGIAR, EC JRC, FAO, ICPAC, IOM, OCHA, OpenStreetMap, UNHCR, UNICEF, WFP, WorldPop

Live

real-time & interactive

Layers update automatically from source; users tailor views to their geography and need

Integrated thematic layers

Population movements

Security

Services

Land cover

Climate hazards

Energy

From data to decisions

A single interface designed to strengthen evidence-based action for displaced and returnee populations, and the communities hosting them.

SELECT

Choose the data layers and geographic areas relevant to your operation.

VISUALISE

Overlay population, security, services, and climate data in real time.

IDENTIFY

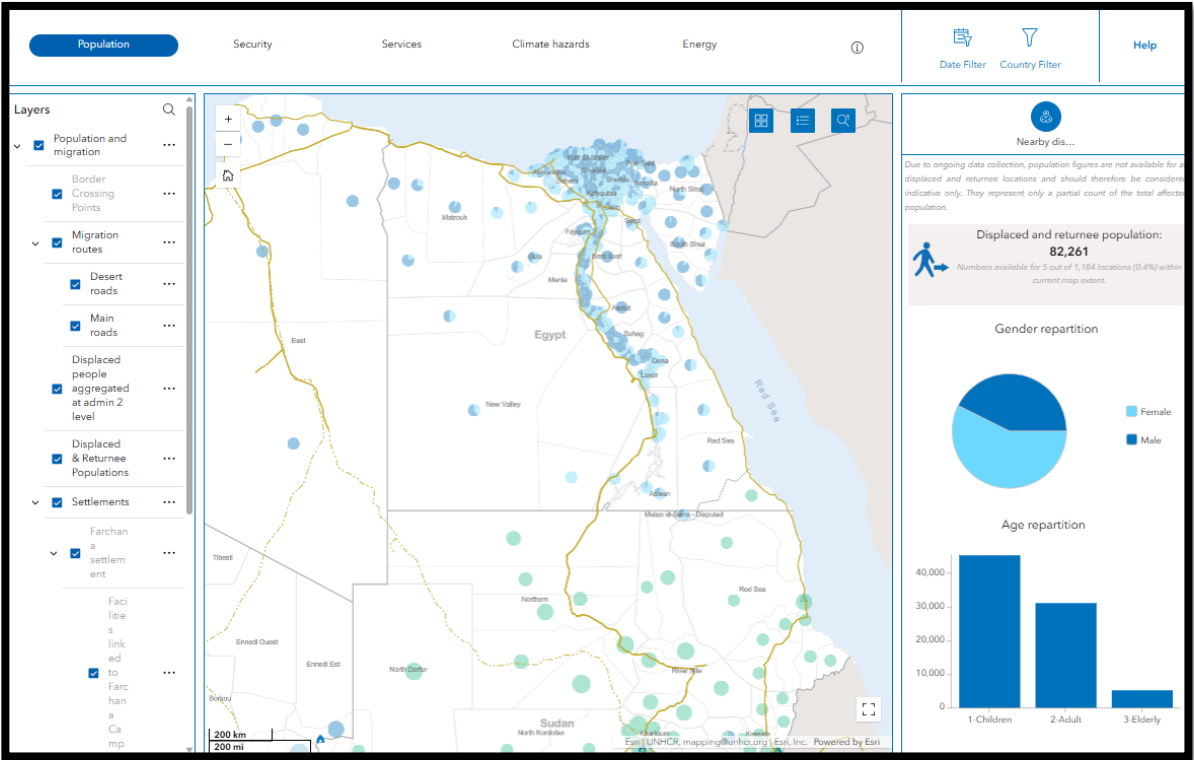

Spot unmet needs, gaps in coverage and concentrations of vulnerability.

TARGET

Direct interventions and resources where they will have the most impact.

Designed for

- Humanitarian actors
- Development partners
- Peace & security actors
- Governments
- Researchers
- Refugee-led organisations

A shared evidence base for partners acting across the Sudan crisis region.

We welcome data contributions from all interested actors

With thanks to our data and technical partners
